The call is reserved for Italian, EU and non-EU students legally residing in Italy.

If you are a non-EU student, you do not have to follow this procedure but follow the instructions in https://international.unisalento.it/departments/engineering?open=6

Please note that students who have obtained the level I degree with a vote equal or higher of 85/110 are exempted from the interview for access to the CdLM. Students with a certification of knowledge of the English language equal to level B2 or higher of the CEFR are also exempted from the interview for the verification of the English language.

The list of students admitted to the interview and of those exempted will be published in advance on the institutional site of the Innovation Engineering Department https://www.dii.unisalento.it/ in any case, the student must proceed with the submission of the online application as indicated in the notice.

<td>MASTER’S DEGREE PROGRAMME IN Aerospace Engineering (LM20)</td>
</tr>
<tr>
<td><em>(The course is taught in English)</em></td>
</tr>
</tbody>
</table>

**Admission requirements**

Requirements to enrol in the Master’s Degree Programme in Aerospace Engineering are:

- To meet the curriculum requirements;
- To have a suitable personal preparation;
- To have an adequate proficiency in the teaching language; such requirement does not apply to students who are native speakers.

To enrol in the Master’s Degree Programme in Aerospace Engineering we require knowledge equivalent to what is foreseen by the general educational objectives of the Degree Class in Industrial Engineering (Class 10 of the Ministerial Decree/MD no. 509/1999 and Class 9 of Ministerial Decree no. 270/2004) to which the following **curricular and language requirements** are added:

1) Having earned **at least 36 ECTS credits (cfu)** in the scientific-disciplinary sectors indicated for the basic educational activities of the Degree Class in Industrial Engineering, in any university programme (Bachelor’s Degree, University Diploma of three years in duration, Master’s Degree – Laurea Specialistica or Laurea Magistrale, Postgraduate Programmes – Master di primo livello and Master di secondo livello);

2) Having earned **at least 30 ECTS credits (cfu)** in the core scientific-disciplinary sectors of the Degree Class in Industrial Engineering, earned in any university programme (Bachelor’s Degree, University Diploma of three years in duration, Master’s Degree – Laurea Specialistica or Laurea Magistrale, Postgraduate Programmes – Master di primo livello and Master di secondo livello);
3) having a good proficiency in English, equivalent to B2 or higher of the CEFR.

Admission to the Programme is also allowed to those having a Master’s Degree (Laurea Specialistica o Laurea Magistrale) in Engineering (with reference to the Ministerial Decree/MD 509/1999 or MD 270/2004) or a University Diploma in Engineering obtained under the system (ordinamento) pre-existing to MD 509/1999. Without prejudice to the requirements of points 1, 2, 3.

**Assessment of technical and linguistic competence**

The candidate’s preparation will be assessed after verification of the existence of the curricular requirements, in the absence of which the candidate will not be considered suitable and will not be admitted to the subsequent examinations.

The candidate’s technical competence will be assessed by means of a compulsory examination, consisting of an individual interview conducted in front of a dedicated board, composed of three professors belonging to the Department of Engineering for Innovation and a member representing the University Language Centre.

Competence in English language can be proven through the possession of language certification equal to or higher than B2 of the CEFR or, alternatively, through the passing of an interview to be taken during the access examination, in accordance with the timetable laid down, in the presence of the abovementioned committee.

Native English candidates are exempted from producing the required certification and verification of their knowledge of English language.

As a result of the examinations, students who have been assessed as having suitable technical and linguistic skills will be allowed to enrol.

**Assessment of individual preparation: evaluation criteria.**

Candidate’s preparation will be evaluated with the final decision of the examination board.

**Subjects covered by the assessment test:**

The interview will aim to ascertain the competence acquired in the basic, core and similar disciplinary scientific sectors as curricular requirements required for admission to the Master’s Degree Programme (Laurea Magistrale).

**Number of places reserved for non-EU students:**

N. 20 of which: N. 10 Chinese students, N. 10 foreign students

**Online application deadline:**

Applications can be submitted by 12.00 PM hours of the following dates:

September 01, 2023
CALL FOR APPLICATION

For those intending to attend the interview on September 11, 2023
December 11, 2023
For those intending to attend the interview on December 18, 2023
February 26, 2024
For those intending to attend the interview on March 05, 2024
April 08, 2024
For those intending to attend the interview on April 16, 2024

Place and dates of examinations:
Test sessions will be held on Microsoft Teams in the time slot assigned; in case of amendments, those will be published well in advance at these links:
ingegneria.unisalento.it/corsi_di_laurea_magistrale e
ingegneria.unisalento.it/home_page

September 11, 2023 at 10.30 AM
December 18, 2023 at 10.30 AM
March 05, 2024 at 10.30 AM
April 16, 2024 at 10.30 AM

Terms and place of publication of examination results
The rankings of students admitted will be published on the University’s website at:
https://www.unisalento.it/albo-online,
as well as in the section titled “Iscrizioni/Graduatorie” of the University website and on the website of the Department of Engineering for Innovation – menu “Didattica” at:
http://www.ingegneria.unisalento.it.
The publication on the online Official Noticeboard fulfils the legal obligations.

How to apply to attend the test for the assessment of individual preparation:
The application must be submitted without any possible postponement from the date of publication of this notice on the University’s website
www.unisalento.it, as well as on the Department’s website
www.ingegneria.unisalento.it and within the deadline set in this Notice.
Any further information regarding the methods of conducting the evaluation test is defined in the General Admission Notice (Bando Generale di ammissione) published on the University’s website.
Applications should be submitted online by visiting the following page:
